W. F. SNYDER MAKES A CHANGE

Sells His Stock in the Western Exploration Company and

INVESTED MILLIONS

O'MEARA-LYNCH CROWD HAS BIG THING IN NEVADA.

After a successful and energetic career as president and general manager of the Western Exploration company, its founder, Willard F. Snyder, S. The formal action taken yesterday is the result of negotiations that have been Tetro.

Its formation was the result of the early business dealings of Mr. Snyder with the late P. L. Kimberley, Frank H. Reasons for Selling Out.

Owing to the death of P. L. Kimberley and the policy of his administrators there has been a general change in the affairs of the Western Expioration company. Some of its interests have been disposed of and others are being closed out. The Balaklala mines have been sold, the Buckhorn is just as good as sold, and so it has been going. Everything owned and controlled by the company has been placed in good order and Mr. Snyder felt that a proader new and a greater opportunity would be afand bring new money into the west if H. Tonopah is in a healthier condition today than it has ever been, he says. The mines are growing bigger and better all the time and new discoveries in the western portion of the camp are rapidly coming to the front and a great deal of ore will soon begin rolling out. "When you find anybody turning the was a slow upward swing which became more languid the higher the level of prices reached.
